## **10- VISAS**

Information on Governing Body Endorsement & Visa requirements, available via [Basketball England](#) who operate the British GBE Requirements, as detailed in the Home Office Code of Practice, on behalf of Basketball Scotland, Basketball Wales and the BBF, information is via the [UK Govt](#) web sites. The GBE process only applies to players / staff who are designated as an International Sports Person , who require a work visa AND will be engaged by a club in the BBNCL (M&W) and the BE NBL Men Div 1.

The issue of a FIBA A or B License or BBF Playing License, **IS NOT EVIDENCE of A RIGHT TO WORK** in the UK, this is a license to play basketball, to meet FIBA Regulatory requirements. All persons subject to UK Border Agency VISA regulations, require to be in possession of a valid UK Visa or a EU Residency Status e.g. Settled Status. British Basketball **National Championship League clubs**, a copy of the valid work Visa / EU Status is required to be provided in the license application process.

Professional Sportsperson – Correct VISA - **the club or the company employing the player/coach/staff member, being licensed by the Home Office to sponsor workers, have a legal obligation, as well as the employee , on ensuring the worker is in possession of the appropriate VISA to work in GB, keep appropriate documentary records, especially if they are defined as a Professional Sportsperson, under the Home Office criteria.** Where the BBF finds that the information provided does not meet the legal requirements for a person to work and therefore participate in the BBF National Championship leagues (M&W) , England NBL Men Div 1, then the playing license is automatically invalid and the club will subject as a minimum, to the penalties under the Administration Offences, as detailed below, at Point 1 and further Disciplinary action by the BBF. The BBF will also inform the Home Office of the situation.

**NOTE – In the FIBA Letter of Clearance applications, all clubs will be required to indicate if a **NON GB National** meets the Home Office Professional Sportsperson criteria and confirm their Visa status.**

**Following relates to BBNCL Clubs Only (as defined on Page 2) each season:**

- 1. The BBF will require the details of the Clubs Home Office Sponsorship License, via the online form. As Circulated**
- 2. The BBF will require details of each clubs Safeguarding Officer, via the on line form. As circulated.**
- 3. The BBF will require the details of the person who has a current UKCC Duty to Care Digital Course Badge / Certificate. (Issued from September,2022)**

## VISAS – SUMMARY

**A - Clubs** should remember that their ability to recruit non-UK players / staff is governed by law and that they **must check the visa status of any non-UK citizen (including EU Citizens) they recruit**. This requires examining, reviewing and copying the original documents, considering their validity against the entry criteria and then holding them on file, with identification as to who checked them and when, etc.

**B** - FIBA/BBF may require production of a players visa as part of any registration or transfer process.

**C** - The BBF – **Non GB Passport Holders Eligibility Guide** – Appendix A herein, provides some guidance on visa requirements for any non- GB passport holder wishing to play basketball in Great Britain, . The British Basketball National Championships via the licensed leagues and Home Country managed leagues may set their own criteria (subject where applicable to BBF agreement) and in compliance with any legal requirements or restrictions, as to the number of **non UK Nationals (this includes all EU nationals)** that can play for a team in any competition or game.

**D- Non UK Nationals who meet the definition of an International Sports Person must where required under legislation be in possession of GBE (issued via Basketball England) & or the appropriate Visa allowing them to be employed in the British Basketball National Championship Leagues (M&W) and the Basketball England NBL Div 1 Men. GBE does not apply to any other leagues operated within the Home Countries.**

## Appendix B -

# BBF Professional Basketball – U18 Player -Club / Team Guide

## Who is this process for?

This process is for all clubs in the BBNCL – clubs Men & Women, with Under 18 year old male and female players who they wish to license and play Professional League Basketball Competitions . Under 18 in this regulation, is defined as the player having attained the age of 16 until their 18<sup>th</sup> Birthday.

## Why is the regulation and process changing?

There have been some significant updates to safeguarding requirements as defined by the Disclosure & Barring Service (DBS) and Disclosure Scotland for children playing in adult sport in the UK. These BBF Regulations and process changes have been introduced to ensure our professional clubs are not putting themselves or their staff/players/volunteers at risk.

The process will support our professional clubs in:

1. Aligning to the updated DBS / Disc Scot requirements.
2. Safeguarding the Under 18 old playing in a professional basketball environment.
3. Safeguarding the adults they are playing with/against .
4. Ensuring there is robust, consistent assessment and approval process for a 16 & 17 year olds to play Professional Basketball. There is evidence that in the past, Under 18 year olds have often been asked to play adult level sport to meet the needs of a team rather than the development needs of the player. This was often done without an appropriate assessment of the player's physical and emotional development. Across sports a number of cases have been identified in the past, that this has affected their transition to adult level sport and resulted in players leaving sport as they were playing outside their friendship groups and in an inappropriate adult environment.

## What is the 2-stage process?

1. The Club must apply for and be approved by its Home Country Association (HCA) to play 16 & 17 year olds in adult professional basketball. This is done by completing and submitting the BBF [Playing Professional Basketball – Club Approval](#) form and process **each season**.  
**Page 27 to Page 30 - Inclusive**

2. The Club must assess each individual Under 18 year old who wishes to play Professional Basketball and gain approval from its HCA for the player to do so.

This is done by completing and submitting the BBF [Playing Professional Basketball – Player Approval](#) form and process **each season**, even if they attain the age of 18 during the season.

**Pages 31 to 35 - Inclusive**

**Are you saying 16 & 17 year olds shouldn't play professional level basketball?**

The BBF have considered the various aspects of player development and the opportunity for talented players on a GB pathway, to experience being part of a professional environment . However, the BBF also recognised that a more robust process should be in place to assess the player's suitability and there should be a neutral element in approving this. In some cases through this new process it may well be agreed that it is not in the players' best interest to play Professional level basketball – the process helps to determine and support this.

**When do we apply for approval for 16 & 17 year olds to play Professional Basketball?**

It is recommended that clubs seek Playing Professional Basketball – Club Approval either before or at the beginning of the season if they think they will have 16 or 17 year olds potentially playing in the BBF Professional Licensed Leagues. This ensures they have everything in place to then be able to apply for individual Player Approval during that season when the situation arises for the individual.

**Why do clubs need HCA approval first?**

Clubs / Teams, as part of the professional league licence are required to be members of their respective Home Country Association and need to be able to demonstrate they have the infrastructure and ability for a 16 or 17 year old to play Professional Basketball (e.g. that, if needed, separate shower facilities are available and they have the suitable people in place to support a child in an adult environment). We also need clubs to demonstrate they have a proven record of being player centred so there is confidence that decisions on playing professional basketball are made in the player's, not the club's, best interest.

The HCAs being the bodies responsible for player development, are best placed to assess a submission and determine if a club has the right things in place for a 16 & 17 year old to play at a professional level. The process will provide information to help the HCA make this decision.

**We are an adult only club – do we need to do this?**

Yes, if a 16 or 17 year old is to play in any adult professional team, the club should follow the regulation and process. Additional requirements may be applied by the respective Home Country to ensure approval is sought from the players Youth Team Club.

**We have a U19 or U23 team – do we need to follow the same process?**

Yes, if in a BBNCL licensed competition, this constitutes an adult team. Youth teams end after the Under 18 age group.

**What things do we need to do to help demonstrate our readiness as a club to play an Under 18 year old in Professional Basketball?** Clubs should follow the checklist below:

<input type="checkbox"/>	On a match day: Ensure referee , table officials and opposition are informed there is / are Under 18 year old player (s) in the side	
<input type="checkbox"/>	On a match day: Ensure parents have provided consent for travel arrangement, remembering that no child should be left alone in a car with an adult. <b>Overnight trips.- Under 18 player should only room with another Under 18 player or single room must be provided.</b>	Further information can be found via the relevant HCA/BBF safeguarding Policy

**Does every adult in the team need to complete a DBS / Disc Scot Check ?**

**No, only those in positions of trust and responsibility** – e.g. manager, coach, first aider, captain. Adult players however should be reminded of their responsibility with a child playing in the team, with regards to behaviour, alcohol licensing laws etc. Consideration should be given to providing Safeguarding Awareness training to Professional Team Staff & Players.

**What if we cannot provide separate shower facilities for Under 18 year olds?**

We anticipate that most Under 18 year olds will be happy to shower and change with their team mates, however alternative arrangements may need to be made if a young person requests this, such as allowing the Under 18 year old to shower first. We want to protect everyone in the game and it is sensible to avoid a situation where a Under 18 year old is left alone with only one other adult in the shower or changing area.

**Is there a limit to the number of Under 18s who can play in a professional basketball team?**

This will be determined by the respective professional licensed leagues Operating Rules, however the assessment needs to be completed for each individual. Once approved a player can play with that professional team up to the point they turn 18. **The player assessment / approval requires to be completed each season until the player is 18.** The assessment and application must demonstrate that it is in each player’s development interests to do so – not only in the interests of the team / club.

**Why do we need to inform the Referees / Table Officials and Opposition?**

The purpose is to safeguard the adults as much as it is the Under 18 year old – they will be able to modify their behaviour knowing that a child is present and avoid leaving themselves (even accidentally) open to accusation. The club does not need to identify who the Under 18 year olds are, they will simply inform the opposition that there is / are Under 18 year olds playing/involved/present. This is as much about what happens off the court as it is about what happens on the court and is a critical element of the safeguarding of the young person and adults they are involved with.

**Why a UKCC Level 2 Coach**

A UKCC Level 2 award holder (includes an HCA Level 2 Coaching Award) must “endorse” the assessment has been undertaken. This level ensures the person has a skill set to assess the player. This is the minimum standard , even better if they have a UKCC Duty to Care award, FIBA WABC membership or a UKCC/HCA level three Coach award. We’d expect for a coach to make an assessment and determination of a player’s ability to play in a Professional Basketball League.

### Who do we send our completed forms to in the relevant HCA ?

This will be determined and communicated by the HCA. If in doubt contact the respective HCA administration/ safeguarding officer.

### We have not been granted approval from our HCA, how do we appeal?

An appeal by a club where approval has not been granted by their respective HCA , will be reviewed by representatives from the GB Performance Commission, Chaired by the GB Performance Director and supported by a representatives from each of the HCAs Performance Staff, not involved in the application refusal.

### What things do we need to include in our Player Approval application?

The form should be used to build a picture of the player, their ability, development, confidence and competence. Clubs need to demonstrate clear evidence of a good, robust assessment process taking place that is focussed on what is appropriate for the player. The guidance below shows some of the type of things those reviewing your application will be considering in various sections of the form:

Number of years the player has played basketball:	<i>This will help to determine experience of a player. It wouldn't normally be expected for novice Under 18 year old players to be granted permission to play professional basketball.</i>
Representative basketball the player has played since 15 years old	<i>This should include e.g, Academy or Centre of Excellence, HCA/ GB representation. This is to help determine the ability of a player – however an academy level player alone does not mean guaranteed approval, nor should approval not be granted if a player hasn't played rep basketball.</i>
Professional basketball team(s) the player is likely to play for:	<i>How many teams the club has and what level they play in; what coaching support the club has in each team; is the "professional team" a suitable environment for the young player.</i>
Will the player also continue to play Age Grade Basketball?	<i>If yes, there is evidence this helps their transition to the professional game with their peers. However, how will you try to balance their playing/training time? Are they going to be overplaying by playing e.g.twice in a weekend? Has their overall training/playing schedule been discussed and agreed with the parents/guardian. Will there be sports science and medical support, covering injuries occurring in the non professional team, as well as with the professional team. Is their adequate insurance in place covering injury and career ending injury. <b>All these points, as a minimum, should be detailed in a written agreement with the parents/guardian of the young player.</b></i>
